## SCREEN EXPLANATION

### HEALTH GAUGE

### TIME REMAINING

### SPIRIT ENERGY GAUGE

#### Health Gauge

This displays the physical health of the mamodo and the partner. It will decrease when the mamodo or the partner sustains damage, and when the gauge reaches zero the battle is over. On the other hand, the player wins if an opponent's physical health reaches zero.

#### Time Remaining

This is the time remaining for the battle. When it reaches zero the battle is over.

#### Spirit Energy Gauge

This is the gauge that displays "spirit energy," which is necessary for initiating spells. This decreases every time spells are used, and if there is not enough "spirit energy" necessary for spells then it will not be possible for the player to initiate these spells. During a battle, "spirit energy" is regenerated gradually, and when you are controlling the mamodo this regeneration is accelerated. When controlling the partner, this regeneration will be somewhat accelerated when you stop moving.

## BASIC GAME CONTROLS

### Unleashing Spells ( A Button)

When you press the A Button, the mamodo will unleash its spells. The level of the spell will change according to how long the Button is pressed. When you press and hold the Button, a spell gauge will be displayed on the screen, and the star mark on the gauge will build up. Release the Button when you want to, and the point where the mark is filled up is the spell level that will be unleashed ( If there are 3 star marks built up then the spell level will be level 3).

### Unleashing Level 2 Spells (Defensive) ( X Button)

When you press the X Button, the mamodo will unleash the level 2 spell (Defensive Type) it possesses.

*\*It is also possible to unleash level 2 spells using the A Button.*

### Direct Attacks ( B Button)

When you press the B Button, you can unleash a direct attack. When playing as a partner, there is the "Book Smack" (A movement in which the opponent partner's spell book gets smacked away), and when playing as a mamodo, you can perform the basic direct attack at both the opposing mamodo and partner.

*\*With a mamodo's attack, it is possible to cause damage to the opponent partner and mamodo, but when playing as a partner it is not possible to cause damage to the opponent mamodo with the "Book Smack."*

### Jump ( Y Button)

Use the Y Button to make the character jump. Also, if you jump when your spell gauge is filling up, this will cancel the spell.

## DIFFERENCES BETWEEN PLAYING PARTNER AND MAMODO

The following are distinct characteristics for playing as a partner or as a mamodo. Use these characteristics well to achieve victory in battle.

Partner Characteristics	Mamodo Characteristics
Mamodo will follow the partner.	The partner does not move from the spot where the player switched into the mamodo.
Spirit energy gauge regeneration is slow (Regenerates somewhat faster when character stands still).	Spirit energy gauge regeneration is swift.
Attack power of spells is higher than when playing as a mamodo.	Attack power of spells is lower than that of the partner.
Faces towards enemy mamodo when firing off spells.	If the partner sustains an attack, the spell book will be dropped 100% of the time (for "Normal" and "Hard" level of difficulty only).
Depending on the mamodo's parameters, the mamodo will guard against attacks, make the same movements as the partner, and so on.	Possible to fire off spells in any direction the player likes.
	When initiating spells, it takes some time until initiation because the partner is being called up.

### Dash ( R Button )

When you press the R Button, the character will dash instantly. The player is invincible while dashing.

### Partner Change ( Z Button )

Using the Z Button, the player can switch back and forth between the partner and the mamodo.

## TARGET MARKER / CAMERA

### Target Marker Display ( L Button )

While pressing the L Button, a Target Marker will be displayed on your opponent's mamodo. If you tilt the Control Stick Left and Right while this Target Marker is being displayed, you can change the target.

### Rotate Camera ( C Stick Left/Right )

If you tilt the C Stick Left and Right, you can freely operate the Camera View.

*\*If you stop tilting the C Stick, the camera will revert to normal Camera View.*

### Camera View Change ( C Stick Up )

When you tilt the C Stick Up, it is possible to change the camera perspective (1 is automatic view, 2 is fixed low-angle, and 3 is fixed high-angle). When using (2), the "fixed low-angle" and (3), the "fixed high-angle" perspectives, it is possible to switch the AUTO function ON/OFF by tilting the C Stick Down.

(AUTO function: This is the function that automatically locks on to the enemy and shows the book that the player drops on screen).

## STRONGEST SPELLS

If you manage to fulfill a certain number of conditions in battle, an "S" mark will flash next to your spirit energy gauge. While this "S" mark is flashing, you will be able to initiate your Strongest Spell.

### STRONGEST SPELL INITIATION ORDER

#### 1. Charge Spell Gauge up to 6

Press and hold the A Button while the "S" mark is flashing, charge the spell gauge up to level 6, and release the A Button.

#### 2. Input Strongest Spell Commands

If you manage to succeed with the actions in (1), the Strongest Spell Command will be displayed. These must be input in order from left to right within a certain period of time. In the event that you do not input the Buttons within a certain period of time you will be returned to the normal battle screen and the "S" mark will disappear.

#### 3. Strength Detection

If you manage to input a Strongest Spell Command, Strength Detection will be executed. Press the Buttons that are displayed one after the other at the left side of the screen to raise your attack power.

*\*Your opponent will also attempt to raise their defensive power.*

#### 4. Initializing

When Strength Detection is finished, Strongest Spell will initiate and the enemy will sustain damage. The amount of damage goes up or down depending on the results of Strength Detection.

*\*If you drop the spell book while the "S" mark is flashing, this "S" mark will disappear.*

*\*When you enter the Command Input Screen, you will no longer be able to initiate movements other than Command Input.*

## THE PAUSE MENU

If you press START/PAUSE in mid-battle, the game will be paused and the Pause Menu will be displayed on the screen. Use the Control Stick or +Control Pad to move up or down to highlight an item and press the A Button to confirm your selection. The following items are in the Pause Menu:

*\*The items that are displayed vary depending on the mode being played.*

**Continue game:** Resume the game from the pause point.

**Back to start of battle:** Returns player to the beginning of the battle.

**Quit game:** Ends battle and returns player to the Mode Select Screen.

**Play again:** Return to the beginning of the battle and battle once again with your opponent.

**Change Character:** Ends battle and returns player to the Character Select Screen. This is also "Quit game" in Vs. Mode.

### ABOUT DESTRUCTIBLE ITEMS

Throughout the stages, there are objects that will be destroyed when they are hit with spells. When aiming at these objects, match the Target Marker up with the object and initiate the spell. There are cases in which the player can sustain damage from debris as well as cases in which items may appear.

*\*For the "Easy" level of difficulty, the Target Marker will lock on to the opponent mamodo and partner only.*

### ABOUT THE SPELL BOOK

If the spell book is dropped the player will no longer be able to initiate spells. At times like these, have the partner pick up the book. Also, it is possible to kick your opponent's book, so use this as one of your strategies.

*\*It is not possible to pick books up as a mamodo.*

*\*The spell book does not get dropped when playing in the "Easy" level of difficulty.*
